## DR. SURI LAB PVT. LTD.

**D**r. Suri Lab was established on March 30, 1980 with the mission to provide quality diagnostic services to the people of Delhi.

Dr. Suri Lab has been on the forefront in providing world class laboratory services by adopting latest technology, inducting highly skilled professionals and introducing latest state of the art fully automated analyzers from U.S.A, Germany, France & Japan. Personalised service & total dedication to the doctor and patient alike has always been our hallmark.

We are the first lab to bring to India - **BactAlert 3D & Mini API from Biomerieux, France** - the world's most revolutionary System for the fastest Blood & TB culture.

We at Dr. Suri Lab insist that quality should exist at all stages - right from collection of samples to the final release of reports. Therefore we have adopted a

comprehensive quality management system. We have been extensively participating in External & Internal Quality Assurance Programmes in India & abroad and by virtue of our outstanding performance we became the **first laboratory in Delhi** to get the status of **Reference Laboratory** in National External Quality Assurance Programme of Indian Association of Pathologists & Microbiologists.

Keeping in view the latest developments in International Diagnostics we have had **ISO** accreditation for the past many years.

We have also achieved the coveted **NABL Laboratory Accreditation** which reiterates our ongoing quest for excellence.

# PREVENTIVE HEALTH PACKAGES

Prices effective from 1 January 2018  
superceding all our previous prices

Contemporary medicine is no longer solely an art and science for the diagnosis and treatment. It is the Science for the prevention of disease and promotion of health. Keeping in view the above fact we have designed five **Preventive Health Packages** which may help Clinicians pick most of the diseases very early.

1

## BODY PROFILE

Following tests will be performed in this package :

- |                             |                           |
|-----------------------------|---------------------------|
| 1 Blood Glucose Fasting     | 22 Serum Cholesterol      |
| 2 HbA <sub>1c</sub>         | 23 Serum Triglyceride     |
| 3 Blood Urea                | 24 Serum HDL Cholesterol  |
| 4 Serum Creatinine          | 25 Serum LDL Cholesterol  |
| 5 Serum Uric Acid           | 26 Serum VLDL Cholesterol |
| 6 Serum Sodium              | 27 Total/HDL Cholesterol  |
| 7 Serum Potassium           | 28 HDL/LDL Cholesterol    |
| 8 Serum Chloride            | 29 Total Leucocyte Count  |
| 9 Serum Total Bilirubin     | 30 Diff. Leucocyte Count  |
| 10 Serum Direct Bilirubin   | 31 Total RBC Count        |
| 11 Serum Indirect Bilirubin | 32 Hemoglobin             |
| 12 Serum GOT                | 33 Packed Cell Volume     |
| 13 Serum GPT                | 34 MCV                    |
| 14 Serum GGTP               | 35 MCHC                   |
| 15 Serum Alk Phosphatase    | 36 MCH                    |
| 16 Serum Proteins           | 37 Platelet Count         |
| 17 Serum Globulin           | 38 ESR                    |
| 18 Serum Albumin            | 39 Blood Group            |
| 19 Albumin Globulin Ratio   | 40 Rhesus Factor          |
| 20 Serum Calcium            | 41 Urine Routine          |
| 21 Serum Phosphorus         |                           |

## 2 EXECUTIVE PROFILE

### *A Complete Check up for everybody who is 40+*

Following tests will be performed in this package :

- |                             |                            |
|-----------------------------|----------------------------|
| 1 Blood Glucose Fasting     | 24 Serum HDL Cholesterol   |
| 2 HbA <sub>1c</sub>         | 25 Serum LDL Cholesterol   |
| 3 Blood Urea                | 26 SerumVLDL Cholesterol   |
| 4 Serum Creatinine          | 27 Total/HDL Cholesterol   |
| 5 Serum Uric Acid           | 28 HDL/LDL Cholesterol     |
| 6 Serum Sodium              | 29 Total Leucocyte Count   |
| 7 Serum Potassium           | 30 Diff. Leucocyte Count   |
| 8 Serum Chloride            | 31 Total RBC Count         |
| 9 Serum Total Bilirubin     | 32 Hemoglobin              |
| 10 Serum Direct Bilirubin   | 33 Packed Cell Volume      |
| 11 Serum Indirect Bilirubin | 34 MCV                     |
| 12 Serum GOT                | 35 MCHC                    |
| 13 Serum GPT                | 36 MCH                     |
| 14 Serum GGTP               | 37 Platelet Count          |
| 15 Serum Alk Phosphatase    | 38 ESR                     |
| 16 Serum Proteins           | 39 Blood Group             |
| 17 Serum Globulin           | 40 Rhesus Factor           |
| 18 Serum Albumin            | 41 Urine Routine           |
| 19 Albumin Globulin Ratio   | 42 FT <sub>4</sub>         |
| 20 Serum Calcium            | 43 TSH                     |
| 21 Serum Phosphorus         | 44 Vitamin D               |
| 22 Serum Cholesterol        | 45 VBG                     |
| 23 Serum Triglyceride       | 46 Vitamin B <sub>12</sub> |

### 3 COMPREHENSIVE HEALTH PROFILE

*An Exhaustive Check up for everybody who is 40+*

Following tests will be performed in this package :

- |                             |   |
|-----------------------------|---|
| 1 Blood Glucose Fasting     | 26 SerumVLDL Cholesterol                  |
| 2 HbA <sub>1c</sub>         | 27 Total/HDL Cholesterol                  |
| 3 Blood Urea                | 28 HDL/LDL Cholesterol                    |
| 4 Serum Creatinine          | 29 Total Leucocyte Count                  |
| 5 Serum Uric Acid           | 30 Diff. Leucocyte Count                  |
| 6 Serum Sodium              | 31 Total RBC Count                        |
| 7 Serum Potassium           | 32 Hemoglobin                             |
| 8 Serum Chloride            | 33 Packed Cell Volume                     |
| 9 Serum Total Bilirubin     | 34 MCV                                    |
| 10 Serum Direct Bilirubin   | 35 MCHC                                   |
| 11 Serum Indirect Bilirubin | 36 MCH                                    |
| 12 Serum GOT                | 37 Platelet Count                         |
| 13 Serum GPT                | 38 ESR                                    |
| 14 Serum GGTP               | 39 Blood Group                            |
| 15 Serum Alk Phosphatase    | 40 Rhesus Factor                          |
| 16 Serum Proteins           | 41 Urine Routine                          |
| 17 Serum Globulin           | 42 FT <sub>4</sub>                        |
| 18 Serum Albumin            | 43 TSH                                    |
| 19 Albumin Globulin Ratio   | 44 Vitamin D                              |
| 20 Serum Calcium            | 45 VBG                                    |
| 21 Serum Phosphorus         | 46 Vitamin B <sub>12</sub>                |
| 22 Serum Cholesterol        | 47 Homocysteine                           |
| 23 Serum Triglyceride       | 48 A <sub>po</sub> A, A <sub>po</sub> B - |
| 24 Serum HDL Cholesterol    | For Total Cardiac Monitoring              |
| 25 Serum LDL Cholesterol    | 49 LPA                                    |
